

**HOME PERFORMANCE
ANSWERS EVERY NEED**

BE > THINK > INNOVATE >

GRUNDFOS 

FOR RELIABILITY AND COMFORT CHOOSE HOME PERFORMANCE

If it's not HOME PERFORMANCE, it's not acceptable performance – the truth really is that simple. There is no better way to create and control flow in the domestic environment. Other pumps may look a little alike on the outside, but that's where the similarities stop. The Grundfos HOME

PERFORMANCE range consistently outdoes them all in terms of reliability, efficiency, durability and ease of installation. The standard setter for quality, it always provides comfort you can count on. So for exceptional performance every time, choose Grundfos HOME PERFORMANCE every time.

TRUSTED BUSINESS PERFORMANCE

With HOME PERFORMANCE, you guarantee that your customers get pump solutions that make a real difference to their homes. They'll appreciate the improvement and they'll also recognise that you made it possible. That's why dealing in HOME PERFORMANCE is an investment in your customers' loyalty and satisfaction. And while HOME

PERFORMANCE pumps may at first sight seem more expensive than our competitors, that's only because they are built to out perform, out last and out do them in every way. The end customer just needs to be informed that in the long run, they are the wisest financial choice.

ALL THE SUPPORT YOU NEED!

WITH HOME PERFORMANCE IT'S EASY TO ANSWER ALL YOUR CUSTOMERS' QUESTIONS

Above and below the ground, every house deserves HOME PERFORMANCE. It has pumps solutions for all waste-water, drainage, water supply, rain-water and garden needs. And each and every one is built for long-lasting, trouble-free operation with an emphasis on efficiency and noise-free running.

HOT WATER PROBLEMS

- ▶ Have to wait for hot water in the shower?
- ▶ Want to prevent water wastage?
- ▶ Want to boost pressure in your shower and hot water taps?

RAINWATER PROBLEMS

- ▶ Want to pressurise your rainwater for irrigation?
- ▶ Want to utilise your rainwater for toilet flushing?

WASTEWATER PROBLEMS

- ▶ Need a bathroom below sewer level?
- ▶ Problems with groundwater entering the building?
- ▶ Want an extra toilet?

WATER SUPPLY PROBLEMS

- ▶ Loss of pressure when several taps are open?
- ▶ Flow volume changing all the time?
- ▶ Have a noisy pump?
- ▶ Flow too little for water heater?
- ▶ Need extra drinking water tap?
- ▶ Lacking mains pressure?

GARDEN PROBLEMS

- ▶ Can't get pressure in hose?
- ▶ Pond won't fill fast enough?
- ▶ Can't drain fountain?
- ▶ Lawn drying out too quickly?

HOME PERFORMANCE OPENS UP NEW BUSINESS OPPORTUNITIES

When you tell a customer you have HOME PERFORMANCE in stock you are not just telling them you have the pump they need – you are telling them you have all the pumps they'll ever need.

► WASTEWATER

Problems with drainage or wastewater?

With HOME PERFORMANCE lifting stations you also create the opportunity and freedom to place toilets and bathrooms in absolutely any area of the home – without any worry about backflow.

► WATER SUPPLY

Just can't depend on your water supply?

With HOME PERFORMANCE you can be sure you'll get a consistent flow of water at the perfect pressure. You'll enjoy the comfort of perfect supply to all the taps and showers in the home.

► HOT WATER

Provide warmth and comfort

With HOME PERFORMANCE it's easier to keep the family warm. Use an easy-to-install circulator to keep the temperature perfect by reliably pumping heating water throughout the home.

► RAINWATER

Precious rainwater is just running away?

Use the HOME PERFORMANCE pumps to put rainwater to good use for water supply, garden irrigation and toilets.

► GARDEN

Afraid that your garden is dying of thirst?

With HOME PERFORMANCE pumps, it's easy to make your garden blossom. Get the right supply pumped from your household or use captured ground or rainwater for irrigation.

WATER SUPPLY

CH-PC
► Pressure systems

TECHNICAL DATA
► Max. head: 55 m
► Max. flow: 8 m³/h

CH-PT
► Pressure systems

TECHNICAL DATA
► Max. head: 55 m
► Max. flow: 8 m³/h

UNI E
► Variable speed booster system

TECHNICAL DATA
► Max. head: 50 m
► Max. flow: 12 m³/h

NS BASIC PC
► Centrifugal pump

TECHNICAL DATA
► Max. head: 30 m
► Max. flow: 7 m³/h

MQ
► Multistage pressure system

TECHNICAL DATA
► Max. head: 45 m
► Max. flow: 3,5 m³/h

JP RAIN PC
► Self priming pump

TECHNICAL DATA
► Max. head: 50 m
► Max. flow: 3,5 m³/h

CME BOOSTER
► Pressure systems

TECHNICAL DATA
► Max. head: 50 m
► Max. flow: 7,5 m³/h

COMPACT E
► Pressure booster pump

TECHNICAL DATA
► Max. head: 30 m
► Max. flow: 26 m³/h

WATER SUPPLY

These low noise pumps are the robust way to provide steady flow in all areas

WASTEWATER

UNILIFT CC
► Submersible drainage pumps

TECHNICAL DATA
► Max. head: 9 m
► Max. flow: 14 m³/h

UNILIFT KP
► Submersible drainage pumps

TECHNICAL DATA
► Max. head: 9 m
► Max. flow: 14 m³/h

UNILIFT AP 35B/50B
► Submersible Effluent pumps

TECHNICAL DATA
► Max. head: 18 m
► Max. flow: 30 m³/h

SOLOLIFT+ WC RANGE
► Lifting stations with grinder

TECHNICAL DATA
► Potential inlets:
WC (DN 100) + 3 (DN 40)
► Max. liquid temp.: 40°C

UNILIFT AP12
► Submersible drainage pumps

TECHNICAL DATA
► Max. head: 17 m
► Max. flow: 35 m³/h

KP BASIC
► Submersible pump

TECHNICAL DATA
► Max. head: 10 m
► Max. flow: 18 m³/h

WASTE WATER

Reliably remove wastewater from above and below sewer level with ease.

RAINWATER

JP RAIN PC
► Self priming pump

TECHNICAL DATA
► Max. head: 50 m
► Max. flow: 3,5 m³/h

MQ
► Multistage pressure system

TECHNICAL DATA
► Max. head: 45 m
► Max. flow: 3,5 m³/h

CH-PC
► Pressure systems

TECHNICAL DATA
► Max. head: 55 m
► Max. flow: 8 m³/h

JP PC
► Stainless steel self priming pump

TECHNICAL DATA
► Max. head: 48 m
► Max. flow: 5 m³/h

RAIN WATER

Use collection tanks and pumps to get the most from a valuable natural resource – rainwater.

HOT WATER

UPS
► Domestic circulator
– hot water and heating

TECHNICAL DATA
► Max. head: 10 m
► Max. flow: 12 m³/h

COMFORT
► Domestic circulator
– hot water

TECHNICAL DATA
► Max. head: 1,2 m
► Max. flow: 0,6 m³/h

UPA
► Domestic booster

TECHNICAL DATA
► Max. head: 9 m
► Max. flow: 1,7 m³/h

HOT WATER — Provide warmth and comfort

HOME PERFORMANCE circulators keep the temperature perfect by reliably pumping heating water throughout the home.

GARDEN

CH-PC WITH PUMP GENIE
► Pressure system with interconnect device

TECHNICAL DATA
► Max. head: 55 m
► Max. flow: 4 m³/h

UNILIFT CC
► Submersible drainage pumps

TECHNICAL DATA
► Max. head: 9 m
► Max. flow: 14 m³/h

JP BASIC PC
► Self priming pump

TECHNICAL DATA
► Max. head: 50 m
► Max. flow: 4 m³/h

KP BASIC
► Submersible pump

TECHNICAL DATA
► Max. head: 10 m
► Max. flow: 18 m³/h

UNILIFT AP 35B/50B
► Submersible Effluent pumps

TECHNICAL DATA
► Max. head: 18 m
► Max. flow: 30 m³/h

JP PC
► Stainless steel self priming pump

TECHNICAL DATA
► Max. head: 48 m
► Max. flow: 5 m³/h

MQ
► Multistage pressure system

TECHNICAL DATA
► Max. head: 45 m
► Max. flow: 3,5 m³/h

SB
► Self priming pump

TECHNICAL DATA
► Max. head: 20 m
► Max. flow: 32,4 m³/h

GARDEN

With compact and corrosion-proof pumps, a great source of irrigation water can easily be installed in any area of the garden.

NO PERFORMANCE

USE THE GRUNDFOS HOME PERFORMANCE RANGE TO PUMP NEW LIFE INTO GARDENS

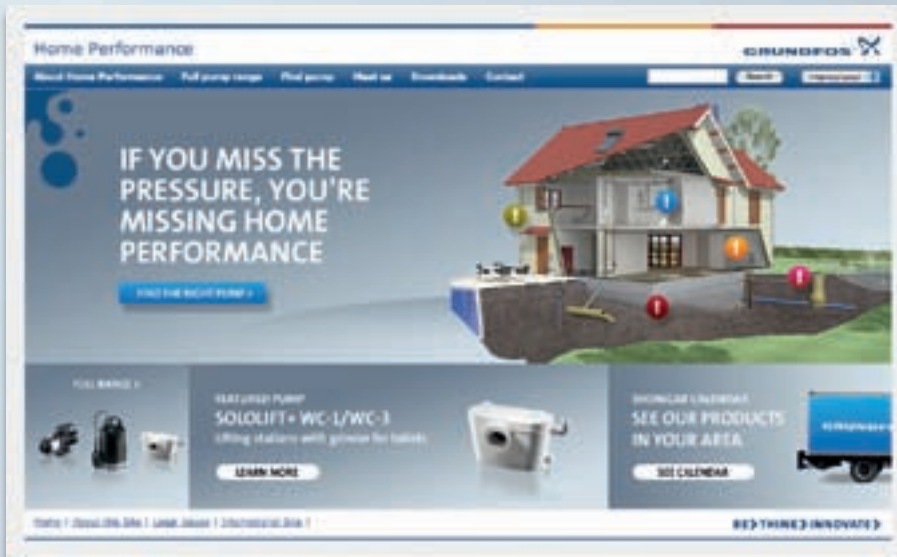

With HOME PERFORMANCE it's easier to keep lawns healthy, flowers blooming and water features running. All pumps are reliable and robust, and there are also stainless steel models available. And like all the other pumps in the range, our garden and irrigation pumps can be quickly and easily installed. Your customers will appreciate the difference they make because they will enjoy it every day.

UNILIFT CC
- Submersible drainage pumps

TECHNICAL DATA
- Max. head: 7 m
- Max. flow: 10 m³/h
