

UNLIMITED FLOW SOLUTIONS

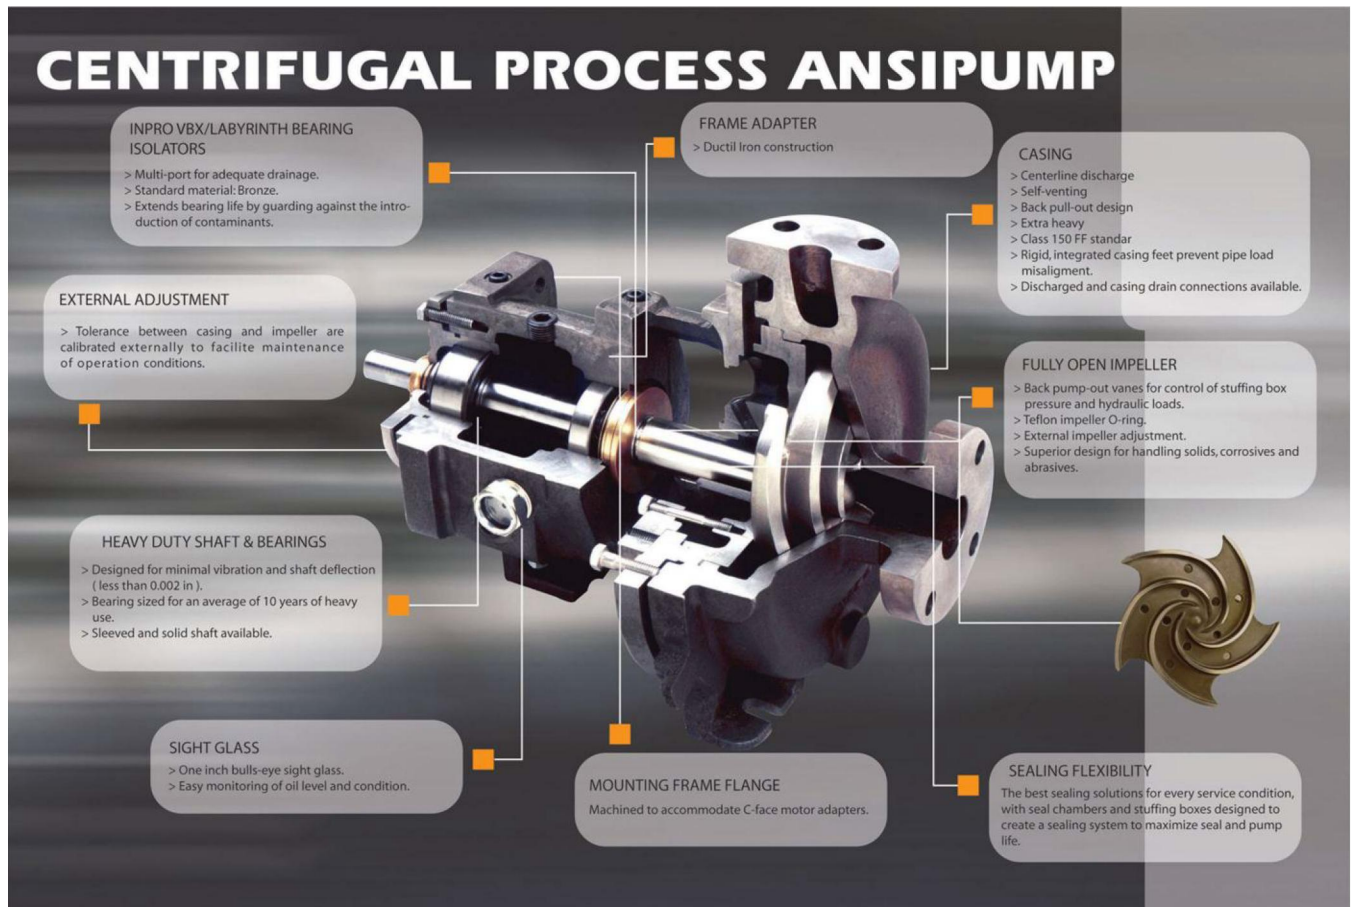

Process pump UA 3196 series

UNLIMITED FLOW SOLUTIONS

Upompe UA 3196 process pump are design to comply with ANSI 73.1 which suitable for varies type of application and installation.

Design Features & Part Layouts:

Standard specification:

- Flow up to 4000 GPM
- Pressure up to 670 ft
- Liquids temperature up to 350 F
- Casing pressure up to 285 PSIG
- Material constructions are
- Build with ductile iron and SS 316

Applications:

- Chemical transfer
- Waste water handling & process
- Food & beverages
- Petrochemical
- Power plant, Pulp & Paper
- Steel, Textile
- General industries process

Advantages of Part interchangeable:
